SUMMARY

I am an economic geographer with a background in public policy. My **research** focuses on urban economic development, especially the economics of immigration and diversity, innovation systems and tech clusters, and public policy for cities. I am currently **Deputy Director** of the ESRC-funded **What Works Centre for Local Economic Growth** at **LSE** and a **Senior Research Fellow** at **NIESR**. Prior to this I spent over 13 years in non-profits, consultancy and central government. I am a co-founder of the **Centre for Cities** think tank. I am also an affiliate at **IZA** and the **Spatial Economics Research Centre**.

The National Institute of Economic and Social Research is Britain's longest established independent economic research institute. I work on projects covering immigration and diversity, urban economics, and the digital economy. Funders include the UK Migration Advisory Committee, Google and NESTA.
